

Applications can now be made to the following employers for apprenticeships:

## Glaxosmithkline

Offering apprenticeships in:

Engineering (Mechanical)  
Laboratory (Chemistry)  
Manufacturing

Our apprenticeship programme offers exciting opportunities to both school and college leavers who will have the chance to study towards nationally recognised qualifications while gaining valuable work experience and also getting paid.

**Recruitment is now open.**

**Visit the Careers page on [www.gsk.com](http://www.gsk.com) to register and apply.**

Explore the different apprenticeship programmes via the web page (or link below) to discover how each one offers the chance to take on the global health challenges of today and tomorrow.

<http://uk.gsk.com/en-gb/careers/apprenticeships/our-programmes/>

As you'd expect, there are minimum entry requirements in order to be eligible and details of the requirements for each programme can be found via the web or link above.

***Please note – there is no closing date identified as applications will be monitored and each programme will close when sufficient applications have been received.***

Therefore, please ensure you apply as soon as possible.
