"My grandma's dog is important to me because she helps me get my mind off the scary and sad things that happen in life and also help everyone to have friends to talk to when you have no one."

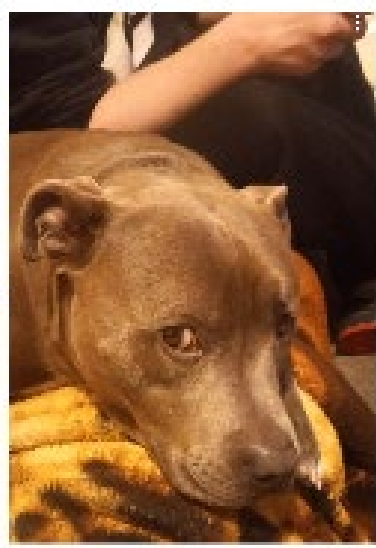

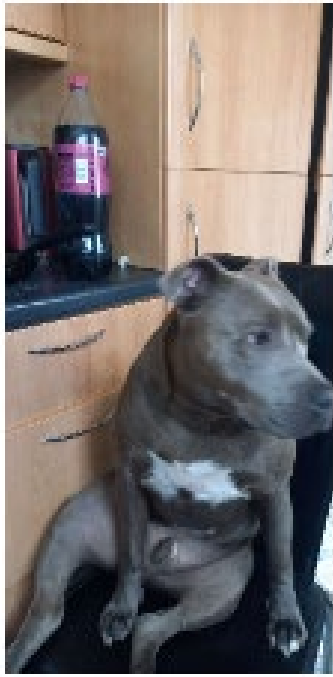

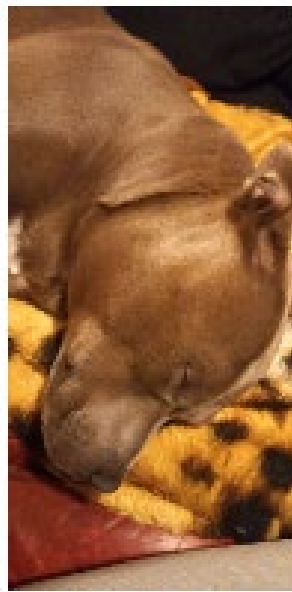

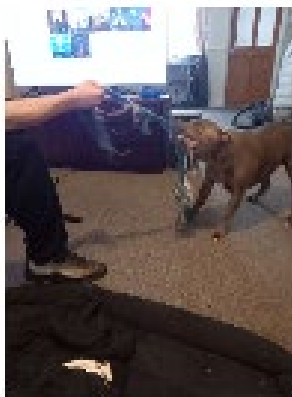

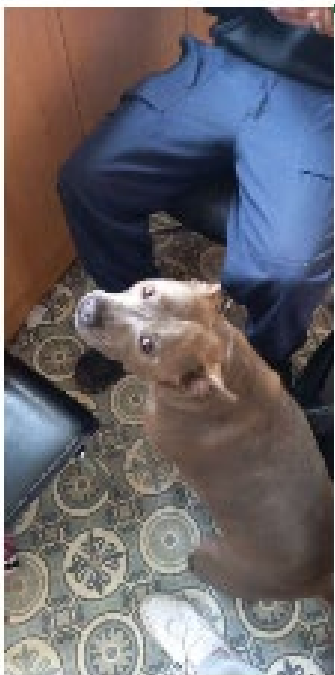

"My hamster is important to me because when I was younger I had no one to play with so on my birthday I got a hamster so then I have someone to play with."

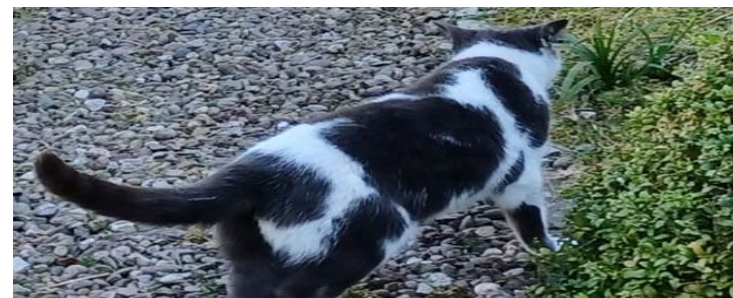

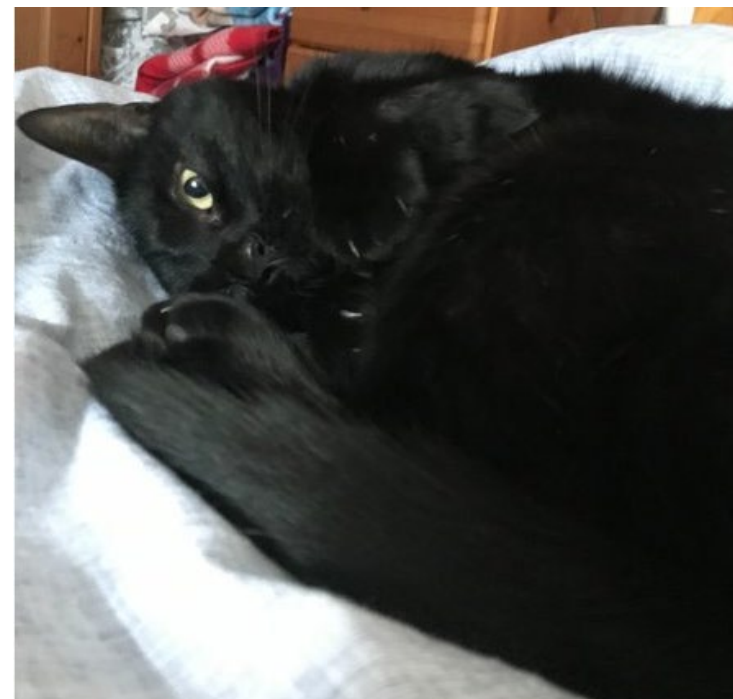

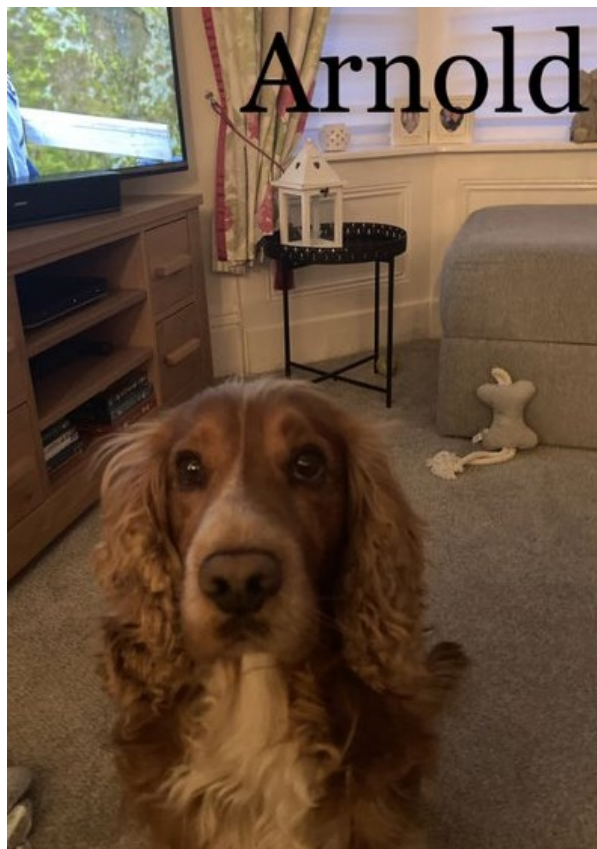

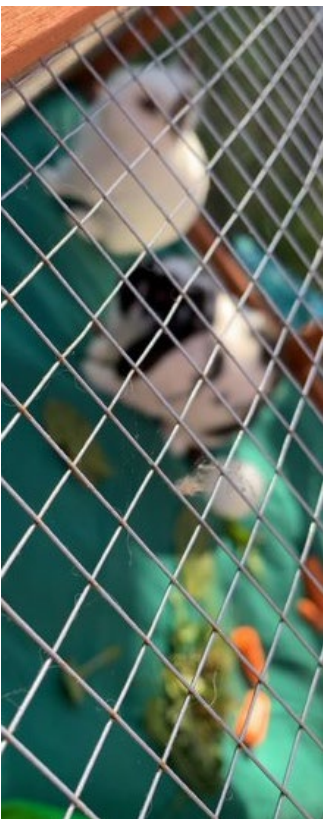

I have a pet rabbit, I have for as long as I remember. Her name is nugget and she is amazing. Nugget has always been there too. She is white with 2 black dots on her

She is a fantastic pet. Although she has hip dysplasia she never stops running around and playing with me.

She has a very lovely nature and never barks.
