COVID-19 Experience- letter to the future

Hello,

I'm [redacted] and I'm 12 years old and I'm currently in Year 8 at UVHS. It's quite a bit different to past years and how you probably live now but at the moment we have to work at home due to The Coronavirus Pandemic (COVID-19). You may have heard of this but in case you haven't I will tell you my experience of what it's been like to live in a pandemic over the last year. Firstly, we have had to be in a National Lockdown so this means that me and other school children can't attend school as normal...instead we have to work from home and you can't really do anything except go out for exercise.

Like you and your family and friends can now, we aren't allowed to see anyone from a different household so this means that at the moment the way we have to communicate with each other is over messages or calling them, it has been like this for a few months. Sadly we can't go back to school until the cases of this virus go down and when The Government say we are allowed to. There is one thing I can't wait for every day and that is when we can go back to normal life for example: See family again, go back to school, see friends and go for days out again.

What I have already said may be negative but trust me it's not all that bad, I have done things during this lockdown that I wouldn't have done if this virus wasn't around. I have picked up a new hobby which is Baking, I can now bake: Banana Bread, Chocolate Smarties cake, Scones, Victoria Sponge, Mince Pies and FlapJack but I can't quite do it on my own yet me and my mum do it together! I really do hope that Summer 2021 is the best summer I have ever had and I hope every day that we will be able to see family again and hopefully things will start to get back to normal...or as normal as life can be.

This Y8 has written their letter to the future. You can find out more about this enrichment activity here: [PowerPoint Presentation \(uvhs.uk\)](https://www.uvhs.uk)
