

UVHS Learning Through Enrichment

Fieldwork In Your Local Area

You have been learning about settlements in your new topic in Geography. We would like for you to take up our challenge to complete some independent fieldwork to find out a bit more about your local area! You can do all the tasks either from home or just outside your home.

Follow the instructions attached to this academic assignment and have a go at the following fieldwork activities:

- A land use survey
- A field sketch
- An environmental quality survey

Good luck & happy investigating 😊

Year 7

Fieldwork Enrichment Project
(to support the Settlement topic)
