

## Hedgerow Heroes!

Come And Take A Walk  
On The Wildside!

We should always try to stay fit with **daily exercise** and we are very lucky to be surrounded by so many **different habitats**.

Why not start off by finding somewhere local that you can explore to **identify the wildlife**.

Keep visiting the same place until you have found all the species on the spotter sheet.

Then, when you next have the chance, aim to explore **a different habitat** further from your home.
