Access to Apprenticeships Open Evening - Gen2, Ulverston Wednesday 18th July from 16:30 - 17:30

We are currently looking to recruit candidates for our 'Access to Apprenticeships' programmes to start in September 2018.

The programmes provide young people with practical engineering skills and experience whilst working towards nationally recognised qualifications in disciplines such as electrical, mechanical, civils, welding and machining.

The open evening is being held at our Furness Skills Centre in Ulverston and is for potential learners and their parents/guardians to:

- Find out about the schemes we have on offer and what they include
- Speak to our instructors who deliver the programme
- Take a tour of the training centre including our engineering workshop
- Learn about the opportunities you will be provided with throughout the course
- Meet current access learners who have just secured apprenticeships and have benefitted from this programme.

“ The access to apprenticeship programmes are perfect if you have not secured an apprenticeship but it is your goal to become an engineer in the future. ”

Event Location:
Gen2 Furness Skills Centre, Lightburn Trading Estate,
Ulverston, Cumbria, LA12 7NE
