## How to get your FREE CGP KS3 Science Revision Guide and Workbook.

This means you will have a book to look up any science work you are set by your teachers. You may have used online versions of books at Primary school, so you might be used to this already. There are four easy steps.

- 1) Register at <a href="https://www.cgpbooks.co.uk/">https://www.cgpbooks.co.uk/</a>
- 2) Add your online codes. (These will be sent to you separately)
- 3) Access the two books online.
- 4) Smile. <sup>(C)</sup> (Optional).
- 1) To add a code and get your online book, it's much easier if you register with your email address first —

I suggest you use your <u>school email address</u> (e.g. <u>19pg1234@pupil.uvhs.org.uk</u>) and your <u>school</u> <u>computer logon</u> password, so you remember them, write them down in your planner so they are safe if you forget them. We at UVHS won't have copies, so don't lose your log on details.

3) Once the code it entered, it should take you back to your library — simply click the book cover to access the book. Do this for **both book codes**.

You will see the two books on screen in your online library. You can access these on PC, tablet or phone for up to six months (180 days). This means you have a book to look stuff up in and help you with your Science. Yippeeee!

Have fun.

Mr Gannon UVHS Development Coordinator for KS3 Science April 2020
